Professional Summary

Computer Science undergraduate (B.Tech, CGPA 8.48) with hands-on experience building full-stack **MERN** applications and responsive front-end projects. Built **CodeTrack**, a DSA tracking platform that syncs data from 5 coding platforms through a JWT-secured REST API. Solved **690+ LeetCode problems** (contest rating 1664) and submitted **10+ pull requests** to open-source projects. Seeking opportunities to build reliable, scalable web applications.

Education

Bachelor of Technology (B.Tech) – Computer Science & Engineering — 2024 – Present
ABES Engineering College, Ghaziabad (AKTU) — CGPA: 8.48 / 10

Senior Secondary (Class 12 – UP Board) — Apr 2023
Sushil Poswal Inter College, Amroha — Percentage: 77.4%

High School (Class 10 – UP Board) — Jul 2021
L.F. Academy Inter College, Sambhal — Percentage: 79.16%

Technical Skills

Programming Languages: C++, C, Java, Python, JavaScript (ES6+)
Web Technologies: React.js, Node.js, Express.js, MongoDB (Mongoose), REST API, JWT Authentication, HTML5, CSS3, DOM API, LocalStorage, Responsive Web Design
Core CS Concepts: Data Structures & Algorithms (DSA), OOP, DBMS, Operating Systems, Computer Networks
Developer Tools: MySQL, Git, GitHub, VS Code, Vite, Netlify, Vercel, Render, MongoDB Atlas, Chrome DevTools
Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Communication

Experience

Open Source Contributor — 2024 – Present
GSSoC 2026 (GirlScript Summer of Code) – Remote

- Submitted **10+ pull requests** to open-source GitHub repositories, resolving bugs and improving code quality.
- Implemented responsive UI features, dark mode toggling, DOM optimizations, and accessibility (a11y) improvements across **5+ repositories**.
- Reduced reported issues by **30%** by collaborating with maintainers on web performance improvements and modular JavaScript architecture.

Projects

CodeTrack GitHub Live Demo | *React, Node.js, Express, MongoDB* — 2026

- Built a full-stack **MERN** dashboard tracking ratings, solved counts and streaks across **5 coding platforms** (LeetCode, Codeforces, CodeChef, GeeksforGeeks, GitHub), replacing manual checks on each site.
- Secured a Node.js and Express 5 **REST API** with **JWT auth, bcrypt hashing (12 rounds), Helmet** and rate limiting to block brute-force attacks across **10 MongoDB data models**.
- Built parallel sync for **5 platform APIs** with timeouts and fallback scrapers, so an outage on one platform never breaks a user's dashboard.
- Curated **2,500+ problems** into a **22-phase, 116-topic** roadmap with progress tracking and a leaderboard, live on **Vercel, Render and MongoDB Atlas**.

TaskMaster GitHub Live Demo — 2026

- Built a zero-backend task management app (**JavaScript, HTML5, CSS3**) that saves all tasks locally with **LocalStorage**.
- Implemented **5+ core features**: real-time filtering, keyword search, dark mode, priority-based sorting, and categorization.
- Improved maintainability by **40%** by restructuring the codebase into modular JavaScript files with separation of concerns.
- Deployed on **Netlify** and optimized asset loading to achieve a **90+ Lighthouse performance score** on both mobile and desktop.

Personal Portfolio Website GitHub Live Demo — 2026

- Developed a mobile-first, fully responsive portfolio website using **HTML5, CSS3, JavaScript, and AOS animation library**.
- Implemented **4 interactive features**: theme switching, animated counters, project filtering, and particle canvas.
- Held **60fps** across particle canvas, counters and AOS animations in major browsers by optimizing CSS and asset loading.
- Built an **EmailJS API** contact form that emails visitor messages directly, with no backend to host or maintain.

Achievements

- Solved **690+ problems** on **LeetCode** and achieved a Contest Rating of **1664** (Peak: 1679, Top 17%).
- Achieved **2-Star** rating on **CodeChef** with a Contest Rating of **1455** (Highest: 1461); solved **680+ problems**.
- Competed in **60+ coding contests** and hackathons, including 24 on LeetCode and 36 on CodeChef.

Certifications

Deloitte Technology Job Simulation – Forage — 2026
Python Essentials 2 – Cisco Networking Academy — 2026
India AI Impact Buildathon – GUVI x HCL — 2026
